

The background of the slide features a vibrant red-tinted photograph of a city skyline at sunset. The Empire State Building is clearly visible in the center-right. The sky is filled with large, billowing clouds also bathed in a reddish hue.

Scala Days

May 15th-17th, 2018 Berlin

June 19th-21st, 2018 New York

VENUES

Sheraton Times Square, New York
Kosmos, Berlin

About Scala Days

Scala Days conferences will bring together developers from all corners of the world to share their experiences and new ideas around creating applications with Scala and related technologies, like Spark, Kafka, and Akka. Scala Days provides a unique opportunity for Scala users to interact with the contributors to the language and related technologies and connect with fellow developers.

For this year's conferences, we expect 600 attendees in New York and 800 attendees in Berlin. Both conferences will include very similar program content and format as our 2017 Scala Days events.

Leaders from Scala User Groups and communities around the globe, students and language contributors, will gather to discuss academic research, use-cases and visionary projects for a two day, action-packed event.

“Loved the up-beat spirit, talking to fellow developers, learning new things.”
